FOOD WASTE DISPOSER

InSinkErator garbage disposals help make kitchen cleanup fast. One of the top range of the company - the Evolution 200 features three-stage grind technology and ultra-quiet operation. It offers 6 year parts and labour guarantee. It has built-in air switch (in polished chrome) accessory for easy installation and added convenience and jam preventing circuit with micro-processor to increase torque to tackle the most difficult grind foods. It also have stainless steel grind chamber (1,180 ml) and stainless steel superior grinding elements to handle the waste.

ADDING RICHNESS TO DÉCOR

Experience the 3 dimensional life with the Qube range by Ark. Beautifully crafted, handsomely symmetrical, water while coursing through its precise and smooth cavities, arises happily from the depths of the plumbing, arriving at the outlet hardly diminished in enthusiasm and energy, delivering you a foamy, anti splash discharge, which being soft on your skin, is yet unrelenting on the stains and dirt. The Qube shape sits aptly on sinks and basins adding a dash of geometric splendour to the milieu.

ULTRA-FLEXIBLE CONCEALED MODULAR SYSTEM

GRAFF presents M-Series shower sets which is a new modular concealed system. The system offer new solutions for the shower area, while also facilitating clean and efficient installations. The new series is composed of a thermostatic unit, two diverters and a cut-off valve that can be combined into a single compact block. This series is different from other systems currently available on the market that provide either a thermostatic with a diverter or a thermostatic with shut-off valves.
