

Graff

Lauren offers a full range of three-hole articles for the washbasin, the bathtub and the shower area. The elements are both deck-mounted and wall-mounted and characterized by sinuous lines and a stately spout. The gentle curve of the faucet and the slim perfectly-appointed handles can take on a stronger look when shown in the gold-plated finish.

Melograno is a new showerhead designed by the brand in collaboration with Melogranoblu, an indoor lighting company. It is crafted from two blown-glass spheres, with a satin or metallic surface, suspended at different heights through silicone tubes and covered by an elegant steel mesh. They are connected to the ceiling by a disc, with a diameter of 50cm and a thickness of 4cm, that supplies both water and light.

Price on request

Axor

The Axor One hand-held shower is designed by the London-based design duo Barber & Osgerby. It comes with two sprays and a high-quality metal body with a fully integrated handle that is positioned vertically in the porter unit of the shower rod. A 90-degree turn of the retaining element allows for a selective neck or head massage with the revitalizing waterfall spray option.

Graff

Derived from the styling of classic motorcycles, the Harley collection mixes contemporary forms with shapes of the past. The handle is deliberately knurled and the surface ridged to prevent slipping even with wet or soapy hands. The progressive cartridge inside allows control of the flow rate and to move from cold water to mixed water and hot water by simply turning the handle.

Price on request

Jaquar

The Tiaara faucet from Artize resembles an extravagant piece of jewellery. The concentric rings evoke the play of echoing ripples of water and the inner ring swings to give access to running water that seamlessly stops without spilling a drop when swung back. It has a solid brass body and a ceramic cartridge.
