

GRAFF®

THE GREEN COMPANY
Sustainability Program 2022

“ For GRAFF, sustainability, quality, and cutting-edge design go hand in hand. We are actively green, from using lead-free materials in our products to reducing waste in manufacturing. Implementing strict conservation standards and ethically designing products, GRAFF is devoted to preserving our precious resources, all while working to create dream spaces that enhance personal wellness around the world. ”

Ziggy Kulig, GRAFF Founder, President and CEO

GRAFF supports its sustainability initiatives with ethically designed products that save water and protect the environment. Partnering with sustainable projects worldwide, GRAFF helps make luxury green.

“GRAFF is inherently dedicated to water conservation, keenly aware of the role our most valuable resource plays in a healthy ecosystem. This year, we’re raising the bar on eco-standards even higher by automatically including water-saving systems with all washbasin and kitchen faucets and showerheads.”

1970s—1980s—1990s—2002—2004

THE STORY BEGINS

Mr. Ziggy Kulig, President, Graff designs, envisions making a difference in the industry by combining his European creativity with American engineering expertise.

NO-LEAD PRODUCTS

The combination of a European background and American culture shapes Kulig’s desire to manufacture unique, designer eco-friendly products.

NEW MANUFACTURING PLANT AND ISO 9001

Adjoining a national park and protecting the environment, GRAFF acquired a manufacturing plant that meets strict EMS and conservation standards.

In 1996, GRAFF achieves ISO 9001 certification for its quality management systems.

THE DEBUT OF DIFFERENCE

More than a product, GRAFF’s designs are masterpieces, representing a philosophy of style and perfection.

ISO 14001 CERTIFICATION

GRAFF obtains the ISO 14001 certification for its production processes.

SUSTAINABILITY TIMELINE

GRAFF BECOMES GREENER

Looking to the future, GRAFF continues to forge new paths with green growth.

GRAFF GROWS

With over 400 new models and more than 25 collections, in 21 luxurious finishes, GRAFF grows its worldwide sales network.

ART OF BATH

GRAFF creates the concept of the Art of Bath, celebrating a culture of wellness in the most private living spaces.

WELLNESS PROGRAM

GRAFF introduces its wellness program, featuring hi-tech luxury products and shower systems equipped with chromotherapy, hydrotherapy and music therapy.

GRAFF RAISES THE BAR

All GRAFF products adhere to eco-friendly standards by automatically including a water-saving device.

WELLNESS & HEALTH

Lead-free products

Produced in brass, GRAFF's faucets are developed in compliance with drinking water regulations and in accordance with the most restrictive criteria required.

“Wellness is the highest form of good health.”

GRAFF adheres to the most stringent international standards and is proud to be one of the pioneers in eliminating any minimum lead residue from the water supplied through its faucets.

LESS THAN 0.001% OF NICKEL AND LEAD

WATER CONSERVATION

“Water is a precious resource. At GRAFF, water conservation is in the design DNA.”

GRAFF water-saving showerheads use ≤ 1.5 gpm

DESIGNED FOR WELLNESS WITH WATER, SOUND AND COLOUR

For wellness of body and mind through a soulful shower, let's take a peek at chromotherapy. The shower envelops the bather in a colourful transcendent multi-sensory experience. It transports the soul to a place of tranquility, art and beauty while both soothing and invigorating the body.

“WATER-SAVING IS THE NEW DESIGN STANDARD FOR GRAFF.”

From spring of 2022, GRAFF products will come with water flow control built in to ensure significant water savings. State-of-the-art technology and award-winning designs further elevate the appeal of GRAFF products.

PHYSICAL AND EMOTIONAL EXPERIENCES DELIVERED THROUGH SIMPLE TOUCH

ZERO-WASTE

A LEAN MANUFACTURING SYSTEM

GRAFF's manufacturing system is based on an innovative Lean Manufacturing Management concept. By eliminating waste in the form of time, energy and materials, each process achieves substantial efficiencies. Even with all the foundry, metal finishing and modernized plating involved in the manufacturing process, GRAFF has a zero-discharge system that recycles 100% of brass and paper products.

BRASS IS FOREVER

**100%
RECYCLABLE**

To respect nature while also ensuring product quality and design aesthetics, GRAFF uses brass. Brass is a stable alloy that needs few additives in its preparation, thus making recycling easier.

**LOW ENERGY
CONSUMPTION**

The low melting point and easy workability of brass make it possible to create products using low amounts of energy.

QUALITY CONTROL

AT THE SUPPLY CHAIN

GRAFF handpicks the raw material suppliers who share the same values and practices that GRAFF follows. The selection criteria comprise a fundamental working philosophy at GRAFF.

The supply chain parameters at GRAFF

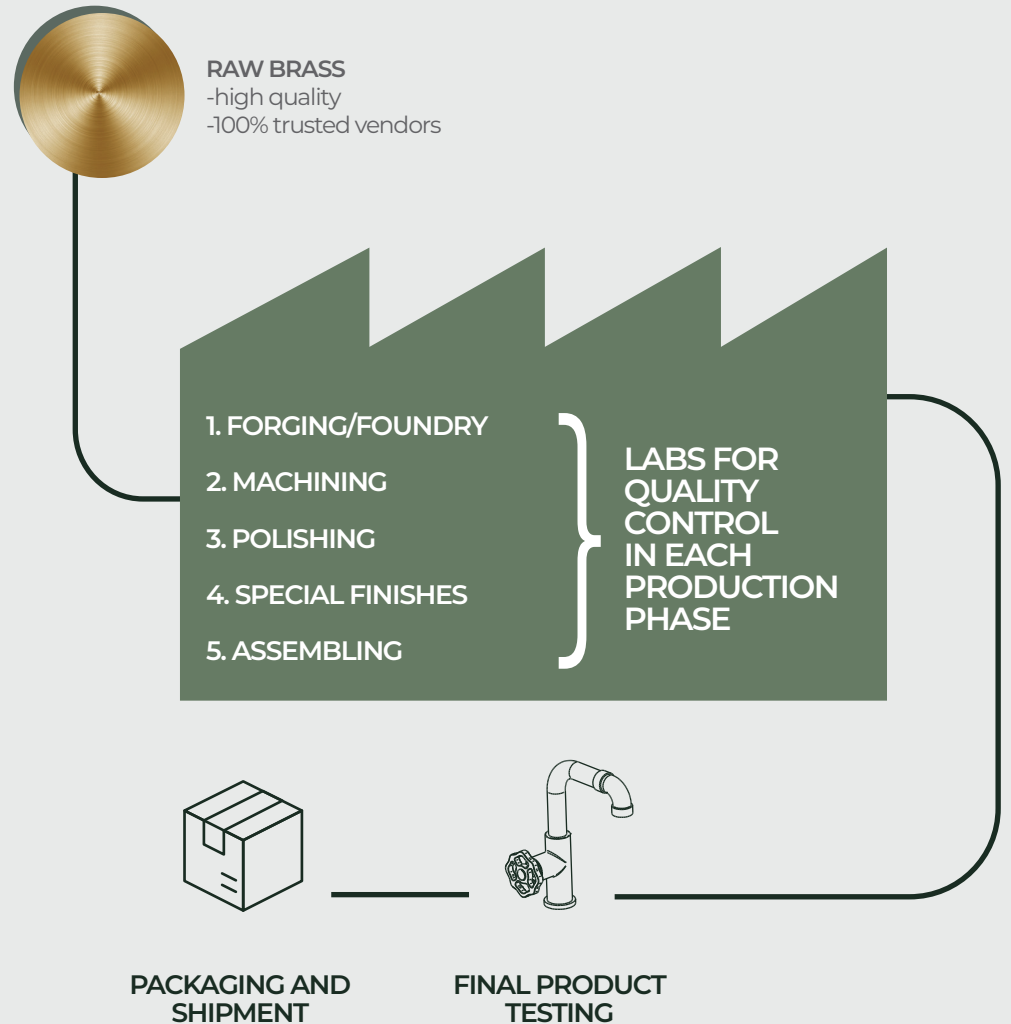

“Creating a positive impact is not only a trend, it is a working philosophy at GRAFF. Respecting biodiversity plays a major role in creating an impact in terms of ethical sourcing.”

QUALITY DELIVERED

100% IN-HOUSE MANUFACTURING

Inside GRAFF’s state-of-the-art manufacturing system each step is carefully hand checked at GRAFF’s in-house lab and then processed through high-precision machines until the final artfully designed product is delivered.

The objective

To put standards in place for sensible green practices that incorporate environmentally responsible measures

To ensure hygiene standards, and the health and safety of the working environment

Green manufacturing building

Product quality to adhere to and respect green designs

Le Barthélemy Hotel & Spa

About the project:
GRAFF's Phase collection complements Le Barthélemy's warm, modern style as well as its green initiatives.

Design:
@sybilledemargerie

Location:
Saint-Barthélemy Nature Reserve

PHASE COLLECTION

80% WATER SAVED
30% LESS CARBON EMISSION

Les Villas du Sporting

About the project:
GRAFF's Sade collection is in harmony with Les Villas du Sporting's stunning architecture and rigorous environmental standards.
