

### BRIDGE FAUCET

Inspired by the famous bridges of Venice, Graff's Sospiro faucet is outfitted with two cylindrical levers for both the single-hole and bridge models. The single-hole faucet is equipped with a pull-down spray head that includes dual-function spray and stream water flow controls, while the contemporary bridge design eliminates the traditional third post often associated with bridge faucets. The separation of the distribution point of hot and cold water provides elevated sanitation capabilities. Circle No. 325 on Product Card

### CHANGEABLE CABINET COLOR COLLECTION

Dura Supreme has introduced a new Curated Color Collection to help designers select from a curated set of top trending painted finish options for cabinetry. The color collection will always be fresh and current, reflective of popular color trends for home interiors and cabinetry. It will be updated annually as color trends shift. The six colors released for the current Curated Color Collection include Gale Force (shown), Jasper, Cyberspace, Lemon Meringue, Slate Tile and Altitude Gray. Circle No. 328 on Product Card

### SHOWSTOPPING BATH FAUCETS

Devon&Devon's Morris is a new collection of bath faucets that showcase a 1940s influence. The handles, the characteristic element of the collection, feature a cylindrical, flared shape, with a retro and contemporary effect. The chromatic contrast between the metal body - available in the new black nickel, along with rose gold, light gold, chrome, polished nickel and bronze finishes - and the white or black ceramic of the handles results in a dramatic effect. ### DISTRESSED PORCELAIN TILE

Design, a glazed porcelain tile collection from Emser Tile, explores how color, pattern and finish interact to create intriguing surfaces. Four distinct patterns - Design Art, Design Form, Design Portrait and Design Sketch - are offered in 9"x9" tile sizes that can be used indoors or out on floors, walls and other surfaces. Design Art, shown, combines a contemporary look with the popularity of distressed finishes. The pattern features 18 graphic faces that are installed at random. Circle No. 329 on Product Card

### MINIMALIST KITCHEN

Developed in cooperation with the Berlin architecture and design team Kinzo, the new SieMatic Frame Design concept for the Pure lifestyle collection gives the minimalist kitchen design new contours and distinctive character, according to the company. The purist design element blends white, gray and black hues with wood-grain finishes for a timeless look. A 2cm frame in the handleless kitchen design surrounds cabinets, side panels and countertops. Other new features include a textured lacquer finish and onyx oak and java oak wood-grain laminate options. Circle No. 330 on Product Card
