

### Sensory Shower

The **Aqua-Sense** shower system by **Graff** represents the future of shower design: a full sensory, completely modern experience that combines high-style design with technical innovation. The electronic system with ceiling-mounted showerhead creates an intense central rainfall, features an RGB LED color-changing effect controlled by a touch screen, and a USB port and speakers for portable music player connection. Several configurations are available. [GRAFF-FAUCETS.COM](http://GRAFF-FAUCETS.COM)
