BEST OF BOTH WORLDS

Combining traditional American technology with European design, the Topaz collection from Graff satisfies the need for a bathroom with classic style and a touch of modernity. The

complete collection includes a lavatory widespread, wall-mounted faucets, deck-mounted Roman tub sets and thermostatic shower systems. The lavatory and Roman tub spouts feature a smooth curve that ends with a hexagonal base framed by the two handles carved like jewels. The lever of the handle is slightly wavy and shaped like a leaf in art-deco style. The showerhead presents a hexagonal shape, echoing the line of the collection spout and handles. The series is available in olive bronze, antique copper, polished nickel and (Graff's trademark) Steelnox finishes.
