↑ CMD

Reach is the stylish new monitor arm available from CMD. Arguably one of the slimmest of its kind on the market today, Reach is available in silver, black and white and comes complete with quick release VESA and C clamp, through desk and 80mm grommet hole fixing kits as standard. The arm tension can be adjusted quickly using a simple Allen key system to support monitors ranging between 2kgs and 5kgs, covering most of the prevalent brands.

↓ Knightsbridge Furniture

Designed by renowned designer David Fox, Spekta is the latest newcomer to Knightsbridge's expanding workplace furniture portfolio. This beautifully styled range enhances a variety of workplace and corporate environments including boardrooms, breakout spaces, social rooms and meeting rooms. The collection, formally known as Jentle, crafted in solid oak wood is available as a four-leg version or a swivel base. Its panelled back offers comfort and ergonomic support, promoting workplace wellbeing.

↑ GRAFF

The GRAFF Shower program is the result of a modern and innovative approach to the industry. It includes several modular thermostatic elements for simultaneous control of separate jets, and a new range of showerheads. From watching videos to listening to music, the Aqua-Sense shower system provides a multimedia experience through the use of a technological touchpad. Aqua-Sense delivers a versatile wellness program with solutions for those who seek aesthetics, functionality, technology, eco-sustainability and performance.

↓ Basalte

Basalte's Sentido is a multifunctional switch with an internal temperature sensor. It is divided into two or four touch-sensitive surfaces to control lights, shades and even music at the slightest touch. The innovative technology is combined with a sleek and modern design, and the new combination of precious metals in a handcrafted finish enables you to add Basalte as a true design statement in any project.
