

WALL PARTITION SYSTEMS

Ozone, one of the leading architectural hardware brands, has come up with its new 'Acoustic Wall Partition Systems'. The systems are designed according to the sound rating required for creating temporary partition wall within the larger area. They are user-friendly and easy to operate. The range has sound transmission reduction features. Each system consists of top hung, manually operated acoustic panels which are interlinked to form an acoustic wall. Each panel can be of 85-100mm thickness, having maximum width of 1250mm and height of 6000mm. These systems are suitable for offices, conference rooms, school assembly rooms, theaters, banquets and party halls.

INNOVATION IN DESIGN

GRAFF, one of the leading manufacturers of plumbing and hardware, has launched a new faucet collection 'LUNA' for the bathroom segment. Equipped with an aerator, the LUNA faucet has a flow rate of 18 liters per minute with a 3 bar pressure. Available with wall-mounted or deck-mounted handles as a lavatory faucet, the collection also includes an original shower column recalling the curve of the spout. It is available in the polished chrome and Steelnox® finishes. Luna has been awarded with the prestigious 'Interior Design Best of Year Awards' in the bath section.
