GROHE INDIA

The latest innovation offered by Grohe is a hands-free kitchen faucet. The LadyLux3 Cafe and K7 faucets are now available with Foot Control Technology, which allows the user to switch the water flow on and off with a tap of the foot on the activation plate installed inconspicuously in the toe space of the cabinet. This inventive enhancement frees hands for added maneuverability. Also, it can help reduce the spread of germs and bacteria around the kitchen.

GRAFF

Graff's latest faucet design, Luna, is inspired by the moon and stars. The elongated spout elegantly curves like the edge of the moon to deliver a stream of water. Equipped with an aerator, the faucet has a flow rate of 18 litres per minute with a three bar pressure. Available with wall-mounted or deck-mounted handles as a lavatory faucet, the collection also includes an original shower column recalling the curve of the spout. Luna is available in the polished chrome and the fingerprint-proof Steelnox finishes. The product is resistant to scratching and chipping as well as abrasions, corruptions and discoloration.
