## HAVELLS AIR PURIFIER

Protect interior spaces with Havells Air Purifier that comes with advanced HEPA technology – effectively eliminating major pollutants and improving air quality. It also comes with an air quality sensor with LED indicator and ionizer feature in select models. It has features like Auto mode, Silent mode, Health plus lock, which keep all harmful pollutants at bay. Purifiers clean the air through the trusted 3-stage filtration process. The first stage catches large dust particles, dander and the hair of pets and humans. The second stage filters PM (Particulate Matter) 2.5 with a removal efficiency of 99.9%. The third stage comes with dense carbon granules that eliminate bad odours, harmful gases and chemicals from the air.

## MINERALCAST WASHBASINS

Infit by Vitra introduces cast mineral technology to a sector that started out with ceramic, and today continues to search for new materials. The form technology by that manifests itself in the new range of Mineralcast washbasins makes it possible to completely change the look of the fixture. A product of Vitra's mineralcast technology, it sets the form free to introduce a new style with slim rims and sharp lines. The washbasins are designed without overflow holes and stand out for their exceptionally precise aesthetics, and perfectly smooth hygienic surfaces.

## DRESSAGE

The luxury furniture collection, Dressage, by Graff, a globally recognised producer of luxury faucets, is defined by its solid wood built and geometric form. To provide a complete experience, the set can be combined with a washbasin and accompanied by a tray for cosmetics, towel hook, a chest of drawers and a movable mirror. The freestanding bathtub is composed of thermoformed Corian® DuPont™ panel teamed with solid wood. The angular cut all along its entire section creates an elevated area that allows one to stretch and relax.
