

↑ **Industville**

Industville specialise in the design and manufacture of vintage industrial-style lighting and furniture. At the Covent Garden store of the historical tea blenders Whittard of Chelsea, two such pendants have been used. The Brooklyn Vintage Giant Step Pendant in brass was specifically chosen to illuminate the tea-tasting bar. The warm, golden tones of the hand-finished brass shades cast a golden glow on the vast floor-to-ceiling library of exotic teas, coffees and hot chocolate that is a trademark of Whittard of Chelsea, and makes it a British institution.

↓ **Vasco**

ONI is the thinnest designer radiator ever produced by Vasco, and is made from 8mm reinforced-aluminium plate. Lightweight and featuring an innovative, soft, rounded design, ONI can be ordered with one or two rounded cutouts for hanging towels. The internal copper heating tubes, with minimal water content, interact rapidly with the aluminium to provide an energy-saving and efficient source of heat, making it also suitable for low-temperature systems.

↑ **Fila**

Fila worked alongside Stone & Ceramic to provide maintenance solutions for tile designs within the extensive 190 Strand. The project includes a dramatic 70sq m stone feature wall within the development's private spa and a 5m-long stone feature desk. A range of treatments, including Fila Deterdek, a concentrated acid detergent, which has a safe, buffered formulation; degreasing and stain removing FILAPS87; universal, pH-neutral Fila Cleaner; organic stain remover, FILASR95, and water-based gel cleaner, FILANOPAINT STAR – were applied, providing high performance while safeguarding surface characteristics.

↓ **Graff**

Unique vision, international design, selected materials and manufacturing tradition are the key elements of Graff's new Finezza faucet and shower collection of deck-mounted, wall-mounted and floor-mounted installations. The shape of the faucet, designed in-house by G+ Design studio, embraces the past and reinterprets it with modern details. The polished chrome and polished nickel models can be adapted for a transitional environment, while the olive bronze and brushed nickel fit seamlessly into traditional bathrooms. Finezza is available also in polished gold and in the new luxury brushed-gold finish.
