Price: On Request

Emanuela Tavolini,
Director of Sales Europe, GRAFF
 GRAFF is globally recognised for its trend-setting products and unique vision. Supported since 1922 by extensive plumbing and hardware manufacturing experience, GRAFF has positioned itself at the forefront of design creating collections for the luxury market. Utilising the latest manufacturing technology and thanks to a tradition of old-world craftsmanship, GRAFF's commitment to creating cutting-edge, and premium-quality collections is evident in each and every product.

MUSA COLLECTION BY GRAFF

These new luxury articles have been designed internally by G* Design Studio and have a fresh, linear look, that suits most of GRAFF's contemporary faucet series. The elements are developed in Sleekstone®, a new patented, composite material that combines dolomitic stone with a unique resin, to create a solid surface product. Its durable properties make its surfaces easy to clean and require minimal maintenance.

Description: Musa is GRAFF's new collection including a vanity washbasin, a freestanding washbasin and a freestanding bathtub. This elegant and luxurious compound is also restorable and therefore, virtually everlasting.

Material: Sleek-Stone®, available in a gloss or matte white finish, is a smooth, non-porous material, resistant to scratches, mold and mildew, stains, abrasions and UV ray.
